

BUDHA DAL PUBLIC SCHOOL, PATIALA
FINAL EXAMINATION (13 March 2026)
ENGLISH
Class – VI (Set – A)

Time Allowed: 3 hours

Maximum Marks: 80

Section – A (Reading)

Q1. Read the passage carefully and answer the following questions. (10×1=10)

Eating a balanced diet is vital for attaining good health. In order for our bodies to function properly and stay healthy, it is important that we follow a good nutritious diet. Enjoyment of a healthy diet can also be one of the great pleasures of life. A balanced diet is made up of six classes of nutrients-proteins, fats, carbohydrates, vitamins, minerals and water-in adequate amount. When we eat foods that contain protein, they are broken down in the body as amino acids. These amino acids are then used to build and repair any muscle tissue. This is great for those who are physically active or exercise regularly. This means that we will be able to recover at a faster rate than if we were not to consume protein. Every tissue in our body is made up of protein, and it is important to consume enough through our diet to replenish it. Protein is also needed to help our immune and nervous system. Foods, such as carbohydrates, give us energy to function properly throughout the day. In fact, muscle glycogen is an important element to help us maintain our energy levels throughout the day. Vitamins and minerals are important nutrients our bodies need in order to not only function properly but also allow chemical reactions to occur at a faster rate. Water comprises about 65% of the human body. It is a necessary essential for the human body to survive. Water is just as important as eating a healthy diet. It can also act as a detox and cleanse our body. Prevention is better than cure. The earlier a person starts to eat a healthy and balanced diet, the more he or she will stay healthy.

Choose the option you consider the most appropriate.

1. Which of these are the classes of nutrients?
a) Protein b) Vitamins c) Fats d) All of these
2. What helps the nervous and immune system?
a) Glycogen b) Carbohydrates c) Minerals d) Protein
3. Which acid helps to repair muscle tissue?
a) minerals b) amino acids c) uric acid d) none of these
4. Why is a balanced diet important?
5. What is the work of proteins?
6. How are carbohydrates useful for our body?
7. Vitamins and _____ are important nutrients our body needs.
8. Water is just as important as eating a healthy diet. (True/ False)
9. Write down the synonym of 'happiness' from the above passage.
10. Write out the antonym of 'insufficient' from the above passage.

A-1

Q2. Read the passage carefully and answer the following questions.

(10)

How would you feel if you woke up one morning to learn that you're really a wizard? That is what happens to Harry Potter in 'Harry Potter and the Sorcerer's Stone' a novel written by JK Rowling.

Harry, an orphan, had spent most of his ten years living with his unkind relatives, the Dursleys. His Uncle Vernon and Aunt Petunia treated him quite badly. Their son Dudley was a big bully who liked to trouble Harry whenever he could. Harry slept in a tiny cabinet under the stairs and wished that someone would come to rescue him. Harry thought that it was an impossible wish, but then something happened to change his life.

A few days before Harry's eleventh birthday, strange letters started being delivered. They were addressed to Harry But his aunt and uncle did not let him read them. One day, a giant named Hagrid delivered a letter personally. That's when Harry learnt that he was a wizard. He had just been accepted as a student at Hogwarts School of Witchcraft and Wizardry.

In a flash, Harry Potter went from being a poor orphaned boy to a famous wizard. Harry also discovered that his parents didn't die in a car crash. They were killed by an evil wizard, Voldemort.

Answer the following questions-

1. How many years did Harry Potter spend with his relatives?
a) five b) nine c) ten d) four
2. In the passage above, how is 'Voldermert' described?
a) An orphan b) an evil wizard c) wizard d) none of these
3. How does Dudley treat Harry?
a) with love b) troubled Harry c) support Harry d) All of these
4. What happened just before Harry's eleventh birthday?
5. Where has he been accepted as a student?
6. What happened to his parents?
7. Find a word from the passage which means 'a child without parents'
8. Find a word from the passage which means opposite to 'normal'.
9. One day, a giant named _____ delivered a letter.
10. His Uncle Vernon and Aunt Petunia treated him quite badly. (True/ False)
